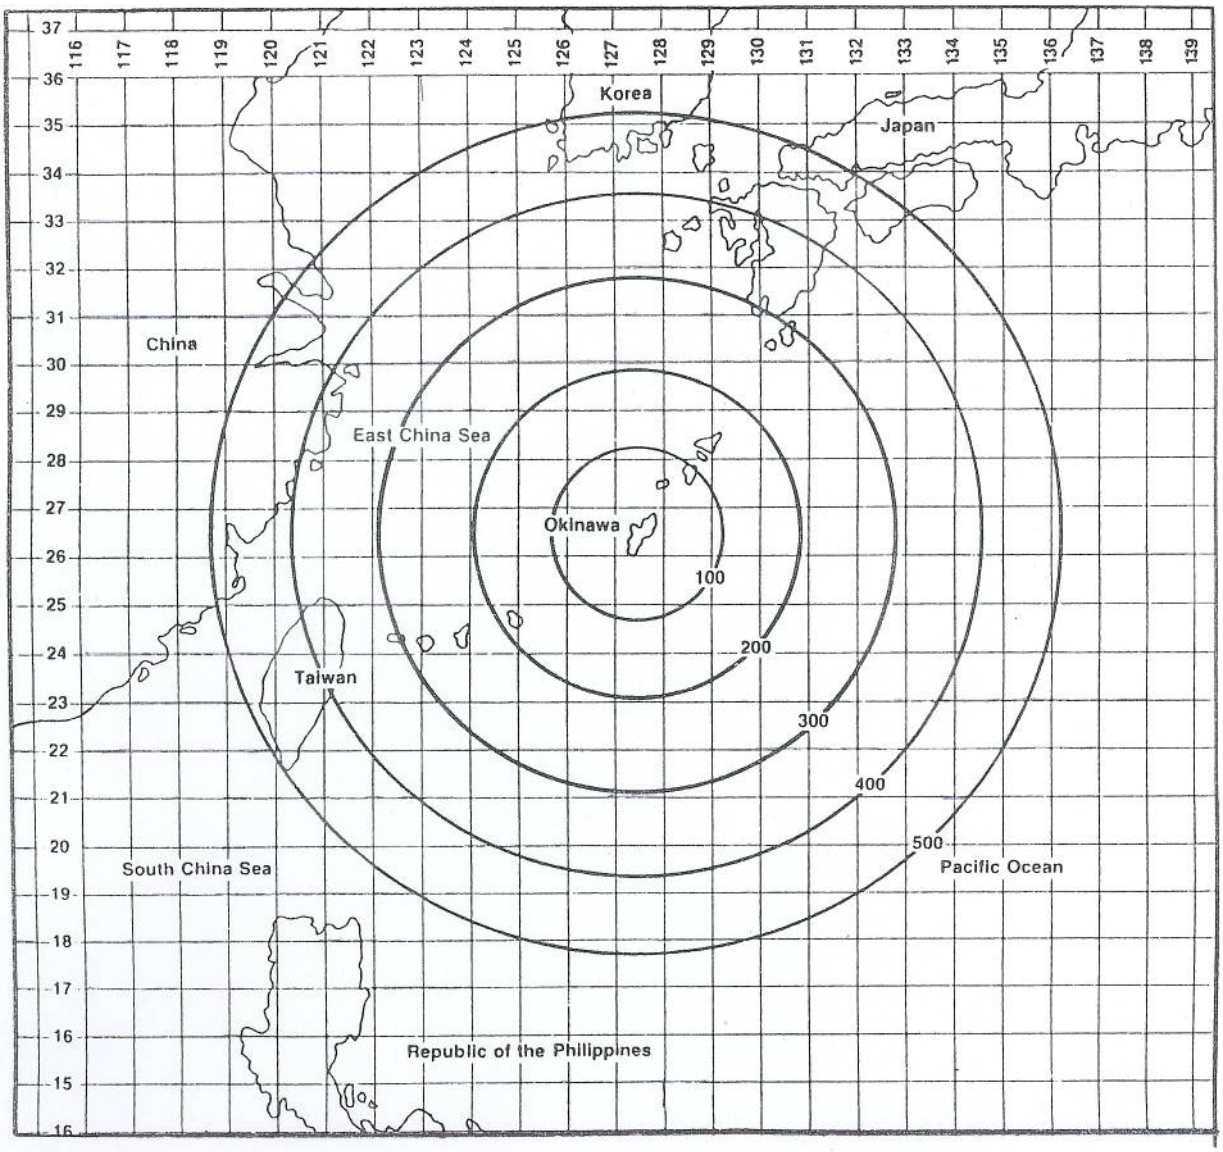
TYPHOON PLOTTING CHART

FOR LATEST INFORMATION DIAL 634-4081 24 HOURS DAILY



DATE	TIME	LAT/LOG	MOVING	MAX WIND	HR POS	HR POS

TROPICAL CYCLONE CONDITIONS OF READINESS (TCCOR)

CONDITIONS	DEFINITIONS
TCCOR 4 (TC-4)	Destructive winds of 50 knots or greater possible within 72 hours. TCCOR 4 will be continuously in effect as a minimum condition of readiness from 1 June to 30 November annually. Now is the time to stock-up on food and Typhoon Supplies.
TCCOR 3 (TC-3)	Destructive winds of 50 knots or greater expected within 48 hours. Initiate a general clean-up around home and office. Pick up loose items, such as toys, tools and lawn furniture.
TCCOR 2 (TC-2)	Destructive winds of 50 knots or greater anticipated within 24 hours. Secure all outdoor property such as picnic tables, barbecue grills, etc.
TCCOR 1 (TC-1)	Destructive winds of 50 knots or greater are expected within 12 hours. DoDDS schools will close at this time. Staff and teachers will work normal hours, unless changed by DoDDS superintendent. Fill any containers you can use for water storage. If you live in low lying quarters, make arrangements to stay with a friend. Make a final check of food and other supplies.
TCCOR 1- CAUTION (TC-1C)	Destructive Winds of 50 knots or greater are anticipated within 12 hours. Actual winds are 34-49 knots. All nonessential personnel will be released to their quarters at this time. DoDDS schools will close at this time. Staff and teachers return home or remain home. Base exchanges, shops, Commissaries, Shoppettes, Gas Station facilities, Clubs, Restaurants, Recreational Facilities and Post Offices will close. Movement about the base should be kept to a minimum. SFS will enforce "essential vehicles only". (Reference Base O-Plan 32-1 "Base Disaster Operations Plan)
TCCOR 1- EMERGENCY (TC-1E)	Destructive winds of 50 knots or greater occurring. All outside activities are prohibited.
TCCOR 1- RECOVERY (TC-1R)	Destructive winds of 50 knots are no longer occurring. Actual winds are 34-49 knots. Nonessential functions remain closed unless directed by the commander. All but emergency essential personnel remain in their quarters.
STORM WATCH (TC-SW)	The typhoon is moving away but the base is still feeling some effects. Hazardous conditions may exist due to storm damage. In some cases storm could return to Okinawa, so stay alert. All military and civilian personnel will return to work within 2 hours or at normal duty hours unless otherwise instructed by their commander. The Commissary and BX will resume operations, unless directed otherwise by the installation commander.
ALL CLEAR	Hazardous conditions and winds are no longer present. Return to normal duties. All Clear is announced when all hazards have been cleared. DoDDS teachers, staff and students will return to school during normal hours. TC-4 stays in affect from 1 June to 30 November every year.
TROPICAL STORM	Maximum sustained winds of 34-63 knots.
TYPHOON	Maximum sustained winds of 64 knots or more.

NOTE: The wind speeds shown above for each TCCOR serve as a guide for decision making.

The final decision on TCCOR declaration rests with the Commander, 18th Wing based on wind speed, weather forecast, safety and operational and mission concerns

GENERAL INFORMATION

1. THE JOINT UNIFORM TELEPHONE COMMUNICATION PRECEDENCE SYSTEM

a. GENERAL INSTRUCTIONS

(1) The Joint Uniform Telephone Communications precedence system is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, customers must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned to the respective precedence. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

(2) The Joint Uniform Telephone Communications precedence system does not make provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedence consistent with the nature of the test or exercise, and upon contacting the called party will identify the precedence of the call.

(3) The precedence designators listed below are directed for joint use and specify the relative order in which telephone calls should be handled based on the importance (content) of the call.

b. PRECEDENCE DESIGNATOR

(1) **IMMEDIATE:** Has precedence over any other telephone call of lower precedence. Pre-empts lower precedence calls. The IMMEDIATE precedence is reserved generally for telephone calls pertaining to:

(a) Situations which gravely affect the security of national and allied forces.

(b) Reconstitution of forces in a post-attack period.

(c) Intelligence essential to national security.

(d) Conduct of diplomatic negotiations to reduce or limit the threat of war.

(e) Implementation of Federal Governmental actions essential to national survival.

(f) Civil defense actions concerning direction of our population and their survival.

(g) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.

(2) **PRIORITY:** Has precedence over any other telephone calls of lower precedence. Pre-empts lower precedence calls. Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.

(3) ROUTINE: Has no precedence over any other call, and is handled sequentially as placed by the calling party. Does not pre-empt any call. Routine designation applies to those official government communications that require rapid transmission by telephone means, but do require preferential handling.

2. DEFENSE SWITCHED NETWORK (DSN) OPERATING PROCEDURES

a. GENERAL

DSN is the principal voice communications network within the Defense Communications System, providing non-secure direct distance dialing service worldwide through a system of government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, intelligence, logistic, diplomatic and administrative traffic.

b. PRECEDENCE

The Joint Uniform Telephone Communications precedence system is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends on co-operation on the part of the persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedence.

c. USE OF THE DSN

(1) Will be authorized for OFFICIAL calls and restricted to:

(a) Only calls that are essential and require a timeliness that cannot be obtained by other means.

(b) The minimum time required to accomplish the official business and not normally exceeding 5 minutes.

(c) Valid Health, Morale, and Welfare calls as defined in the appropriate CINCPAC directives.

d. TELEPHONE MONITORING

The DSN system is provided for transmission of official government information and is subject to monitoring at all times. **Use of the DSN system constitutes consent to being monitored.**

e. PERSONAL CALLS

Personal and unofficial calls over the DSN system are prohibited, except as noted above.

f. DSN DIALING INSTRUCTIONS

(1) Operator Assisted:

(a) At U.S. Air Force Base to place a call with a higher precedence than routine, dial the following numbers:

Dial	Precedence
92	IMMEDIATE
93	PRIORITY
94	ROUTINE

(b) At U.S. Marine Corps Bases to place a call with a higher precedence than routine, dial the following numbers:

Dial	Precedence
92	IMMEDIATE
93	PRIORITY
94	ROUTINE

(2) Direct Dial: All Class A subscribers may direct dial DSN numbers in the Pacific area at routine precedence by dialing the seven-digit DSN number (Dialing must be completed without delay; a pause of 15 seconds or more will result in a busy signal.)

(3) **For Operator Assisted Call:** All users should provide the DSN operator with the following information:

(a) The precedence of the call.

(b) DSN control number (obtained from your unit Telephone Control Officer).

(c) Name, Rank, Organization, and Telephone number.

(d) Called location (military and geographical location).

(e) Any additional information required by the operator.

3. OFFICIAL LONG DISTANCE INTERNATIONAL TELEPHONE SERVICE

International Telephone service for official military business is available for areas **NOT** served by DSN. **Only calls with the proper authorization will be booked through the following switchboards**. Contact your Telephone Control Officer for a control number.

♦ Air Force Personnel	Kadena Switchboard: Dial 0 (Operator assistance)
♦ Army Personnel	Consult your Telephone Control Officer
♦ Marine Corps	Consult your Telephone Control Officer
♦ Navy Personnel	Consult your Telephone Control Officer

4. SECURITY

Telephone communications facilities are subject to monitoring to determine operational efficiency and proper usage of the system. The U.S.F.J. Okinawa with DSN administrative telephone system is not secure. Classified information is not to be discussed via this system unless using secure telephones.

5. BOMB THREAT

Subscribers receiving bomb threat calls are requested to do the following:

a. Immediately dial "911" and notify the Security/Military Police, using a different telephone if possible.

b. Try to ascertain the sex, accent, age, attitude and background noise through conversation with the caller. Use an AF IMT 440 if available.

6. OBSCENE CALLS/MALICIOUS CALL HOLD (MCH)/CALL TRACE POLICY AND CAPABILITY

a. Call trace capabilities for bomb threat or nuisance calls are greatly enhanced if the customer uses the telephone's Malicious Call Hold (MCH) feature during the call.

(1) While caller is on the line, momentarily depress the hook switch (dial tone), and then dial *57. MCH is activated when the caller returns to the line.

(2) After MCH is activated, continue asking caller questions. Dial 911 from another phone if possible, or use your phone if the caller hangs up.

b. In the event of a **Non-life Threatening/Nuisance/Harassment** call to your line you should contact your First Sergeant with time and dates of receiving the call and any other helpful information you can gather about the call.

Your First Sergeant will request the call trace through the 18 CS Call Trace desk (634-7777) and the results will be obtained by your First Sergeant.

c. Active Life Threatening Calls: Call the Security Police Law Enforcement Desk by dialing 911.

7. MINIMIZE

MINIMIZE is a condition were normal telephone traffic is drastically reduced to avoid delaying messages connected with an actual or simulated emergency. When MINIMIZE is in effect, switchboard operators will challenge all originating calls in the following manner: "MINIMIZE is in effect. Only vital calls will be accepted. Is this a vital call?" If an affirmative reply is received, the call will be completed. Otherwise, the caller will be requested to reinitiate the call after the MINIMIZE is lifted.

8. RECEIVER OFF-HOOK

Receivers left off hook with the intent to busy the line more than three times during any 60-day period could lead to phone disconnect.

9. TAMPERING WITH GOVERNMENT OWNED TELEPHONE EQUIPMENT

Telephone instruments, associated wiring and other telephone items will not be moved, connected, disconnected, or otherwise tampered with by personnel other than those specifically assigned to do such work. Tampering or misuse of government telephone equipment is sufficient cause for issuance of a statement of charges and termination of telephone service.

10. OBTAINING OFFICIAL TELEPHONE SERVICE

Requests for official telephone service will be submitted in accordance with established policies and procedures of the requesting activity's supporting Communications Telephone Office (See 18 WGI 33-101). Unit communications officers are advised to coordinate their official telephone service requirements with their supporting telephone office prior to accomplishing any telephone installation work orders. Official service requests must be validated by the responsible telephone control officers or appropriate authority, located as follows:

a. AIR FORCE

18 CS/SCOSC
Unit 5149, APO AP 96368-5149
Bldg 400, Kadena AB
Telephone 634-1078

12. UNOFFICIAL OR CLASS "B" SERVICE

a. MARINE CORPS

All information contained here has been obtained from applicable DoD, Navy and Marine Corps Directives. These directives are either service wide or locally generated and have been approved by the Commanding General, Marine Corps Base Camp Smedley D. Butler.

GENERAL INFORMATION

(1) Who May Apply: Active duty, DoD civilian employees, appropriate contractors and other agencies specified in applicable directives. In the case of active duty and DoD civilian employees, the spouse may apply for service if the spouse is in possession of a power of attorney appropriate for this action.

(2) Quality of Service: The United States Government does not guarantee the quantity or quality of service to be provided and shall not be held liable for any discontinuance or failure in the service. However, should your service be disconnected for a documented trouble for more than five days, your bill will be prorated for the period that it is out of service. Only calls reported to # 114 (MCB, G-6 Telephone Help Desk) will be considered to have been properly documented.

(3) Liability: The subscriber is liable (accountable) for the following:

(a) The installation and administrative service fee.

(b) The monthly service charge.

(c) All toll calls placed on the requested telephone line, regardless of who places the call.

(d) The replacement/repair cost of all government provided telephone equipment, should it become damaged or misplaced.

(e) All charges for time and materials, should the customer cause damage to the United States Government Telephone System in any way.

(4) Personal Telephones: Government telephones are not provided. Obtaining a telephone is the responsibility of the customer. The basic installation and monthly service fees cannot be reduced for the period that there is no service if related to the customer's equipment.

(5) Telephone Bill:

(a) Bills are mailed during the first week of each month. All toll calls placed during the month will be billed on that month's bill. The monthly service fee (prorated for partial months) will also be charged.

(b) If you do not receive a bill by the 15th of any month, please call the telephone customer service center at 645-HELP. Additional copies of your bill is available at either Telephone Customer Service Center.

(c) All charges are due the 20th of each month. Leave, TAD, Deployment, non-receipt of bill, etc., are not justification for missing a payment; however, periods of at least 30 days, but no more than 90 days are eligible for temporary suspension of service.

(6) Payment: Bills are mailed during the first week of the month and are due on the 20th day of the month. Personal checks, money orders, etc., must be made payable for the full amount shown on the bill or for an additional amount for an advance payment. Third party checks will not be accepted. Only one subscriber's bill can be paid per check. A service charge will be applied to the customer's next bill for any check returned for non-payment by the financial institution. Additionally, a letter describing the situation will be sent to the customer's command. Payment for services may be made in the following ways:

(a) Bills may be paid by check, money order, or cash in person at the Camp Courtney Telephone Customer Service Center, building #4121, the Camp Foster Telephone Customer Service Center, building #481, or any Community Bank branch (take both receipts on or before the 18th of the month).

(b) Checks or money orders with account and telephone number on them must be made payable to " G-6, TELEPHONE OFFICER", for the amount shown as "TOTAL" on the bill and may be mailed marked "MPS" (NO POSTAGE) to:

MCB, G-6, CSB, TCSS
UNIT 35035 BOX 173
FPO AP 96373-0173

(c) A check or money order (**NO CASH**) may be deposited in the drop box in front of building #4121 Camp Courtney or in front of building #481 Camp Foster.

(7) Payment Due Dates: Telephone bill payments are due by the 20th calendar day of the month following the month in which service is provided (e.g., January's bill will be due on February 20th). If using the postal system, customers must post their payments early enough to ensure that it reaches the Telephone Customer Service Center by the 20th of the month.

(8) Delinquent Accounts:

(a) Any bill not received by the due date (the 20th) is considered delinquent and is placed in a delinquent status.

(b) At the end of that month when the current month's bills are being prepared, all accounts that are delinquent from the previous due date have a delinquent notice printed with the next bill.

(c) On the 21st day of the following month (the account is now 30 days delinquent), if the bill has not been paid, telephone service is disconnected temporarily. The temporary disconnect status will be for five working days. After five working days, if the bill has not been paid, the number will be permanently disconnected and a delinquent letter will be sent to the individual's Commander. Enclosed with this letter will be the customer's final bill. The letter will request immediate action and will give the customer fifteen (15) more days to pay the bill.

(d) If no payment is received in the time allotted, a payroll offset will be initiated by the Assistant Chief of Staff, G-6.

(9) Reconnection After Termination For Nonpayment:

(a) Once a telephone has been temporarily disconnected for nonpayment, reconnection will not be considered unless payment is received in full within five working days. If no payment is received, and the telephone is permanently disconnected, reconnection will require a new installation request and payment of an administration fee. The new installation request will only be accepted after the customer has paid all outstanding charges.

(b) Subscribers who receive three delinquent notices in a twelve-month period will have their telephone permanently disconnected for one year. After one year they may file a new application (after full payment has been made) along with an administrative fee.

(c) Subscribers who have had two permanent disconnection's or three temporary disconnection's in a 12 month period will have their Class "B" privileges revoked for one year. After one year, approval from the MCB, Assistant Chief of Staff, G-6, is required for telephone service to be reinstalled.

(10) **Temporary Suspension Of Service:** Temporary suspension of service may be provided for a fee (list of fees available from either Telephone Customer Service Center. Each line suspended will have this fee applied (two lines suspended, two fees applied). This is recommended if you are going on extended leave, TAD, TDY, etc., for more than 30 days (minimum) and less than 90 days (maximum). You must apply for this service at one of the Telephone Customer Service Centers. You are required to pay your bill in full (calculated up to the day the temporary suspension begins) at the time of application. Suspension of services will occur the same day; suspension of services for future dates cannot be accepted at this time.

(11) **Final Payment:** You are required to pay your final bill upon termination of service and prior to departing Okinawa. Final disconnection will be made as follows:

(a) Come to the Telephone Customer Service Center a maximum of two weeks or fourteen (14) days prior to departure we also offer same day services. It is **mandatory**, that each customer fill out a disconnect/removal application and make final payment prior to the desired disconnection date. Final payment must be made in person.

(b) Toll calls will not be authorized once final payment has been made.

(c) An attempt to leave Okinawa without paying your telephone bill can result in legal hold until payment is made. Leaving Okinawa without terminating telephone service waives all of your rights and will result in a payroll offset to satisfy any debt to the US Government.

(d) The Commanding General, III MEF/Marine Corps Bases Japan has published a message making it mandatory that all personnel check out of the Telephone Customer Service Center. It is not, however, necessary to check out with our office for a Permanent Change of Activity (PCA) move from one Okinawa unit to another if your telephone is going to remain in its pre-PCA location.

(12) **Billing Questions:** Notify us in case of errors or questions about your bill. If you think your bill is wrong, or if you need more information about a transaction on your bill, write us at the address listed on your bill. Write to us as soon as possible. We must hear from you no later than 60 days after we sent you the first bill on which the error or problems appeared. You can telephone us, but doing so will not reserve your rights.

(a) In your letter, provide us the following information:

1. Your name and account number.

2. The dollar amount of the suspected error.

3. Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are not sure about.

4. Provide either a canceled check, Marine Corps Base Telephone bill receipt or cash receipt certificate from the Marine Corps Base Telephone Customer Service Center.

(b) The Telephone Customer Service Center will respond to your letter by adjusting your bill or, if the problem is not readily resolved, by telephone.

(c) If we find that the bill is correct, existing policies on payment and delinquencies as explained in the references and provided to you when you applied for service will still apply.

(d) If we find that we made a mistake on your bill, we will correct your bill and credit your account where applicable.

(13) **Monthly Toll Call Charges:** All MCB residential customers who place monthly toll calls (cellular, out-in-town, domestic long distance, and off base internet service providers) (ISP's) will be limited to the following rates:

GRADE	LIMIT
E1-E3	$250.00
E4-E5	$500.00
E6 and above (including civilian employees)	$900.00

Once you've reached the monthly toll call limit, your toll call dialing feature will be deactivated until payment is received. You can also make payments in advance to one of our Customer Services Centers to avoid deactivation of the toll call dialing feature.

(14). **Rotation Date:** The Telephone Billing System is programmed to cause an interruption in service if your rotation date has expired. Customers that have extended on island are strongly encouraged to update their rotation date. If your services are disconnected due to your rotation date, you will have a two-week period in which to contact us to correct the problem. Failure to do so will require you to reapply for telephone services, and an administration fee will also be required.

13. PRIVACY ACT OF 1974

Authority: Chapter 31, Title 44, U.S.C. 3101.
Under the provisions of the Privacy Act of 1974, an option to have quarter's numbers and personal telephone numbers not listed in the telephone directory is extended to all Class "B" subscribers. Failure of refusal to exercise this option constitutes approval for directory listings.
