What are Typhoons?

Typhoons are tropical cyclones that form in the central and west Pacific Ocean. The Okinawa prefecture and surrounding areas are prime breeding grounds for these storms. High humidity, and warm water temperatures, provide ideal climates for typhoons. When typhoons develop, they pose serious threats to the local community. Winds can reach extreme levels (greater than 150 mph), which can send debris flying through the air. Additionally, storm surges can occur, raising water levels and intensifying waves caused by high winds.

Typhoon season in Okinawa starts on June 1st and continues through November 30th each year. This is the most likely time for typhoons to occur, but they can occur at any point through-out the year if the right conditions are present. If a typhoon does occur, Okinawa prepares for the storm by executing actions outlined in Tropical Cyclone Conditions of Readiness (TCCOR).

TCCORs are graduated states of readiness based on the forecasted onset of 50 knot (58 mph) winds. **TCCOR declarations are orders: take them seriously!** While conditions may not look bad where you are, they can change quickly and you can be caught in a violent storm without warning. Typhoons can accelerate rapidly, causing a drastic shift in the surrounding climate, causing a violent storm without warning. Changes in TCCOR levels are broadcast over AFN radio (89.1 FM) and published on the AFN Okinawa and Kadena Air Base official Face-book pages.

Tropical Cyclone Conditions of Readiness (TCCOR)

Outside active Typhoon Season

- Destructive winds are possible within 96 hours. Monitor weather channels and base information. Check personal emergency kits. Units should review TCCOR procedures.

TCCOR 4 (Default TCCOR level, unless otherwise specified 1 Jun - 30 Nov)

- Destructive winds are possible within 72 hours. Obtain emergency supplies. Families should review their NEO kits in case evacuation is declared after the storm passes.

TCCOR 3

- Destructive winds are possible within 48 hours. Fill vehicle and grill gas tanks. Ensure sufficient money (have cash in yen and dollars) and important documents are easily accessible.

TCCOR 2

- Destructive winds are anticipated within 24 hours. Secure outside items, or move indoors if possible.

TCCOR 1

- Destructive winds are anticipated within 12 hours. Move sensitive items (e.g., TVs, electronics, items that can be easily damaged) away from windows and cover them with plastic.

TCCOR (Continued)

TCCOR 1 CAUTION (1C)

- High winds (35 knots) are occurring. Stop all Non-Essential Travel and remain indoors until further notification.

TCCOR 1 EMERGENCY (1E)

- Destructive winds (50 knots sustained or 60 knot gusts) are occurring. Outdoor movement prohibited, remain indoors and away from windows.

TCCOR 1 RECOVERY (1R)

- Destructive winds have subsided and are no longer forecasted to occur. Outdoor movement prohibited/remain indoors. Essential base recovery is occurring. All personnel should stay indoors away from windows.

STORM WATCH

- Strong winds are possible due to proximity of a tropical cyclone.

ALL CLEAR

- Destructive winds have passed and are no longer forecast to occur and recovery efforts are considered complete. Resume normal activities.

Military Housing Resident Actions

Outside active Typhoon Season

- Review all other TCCOR level actions.

TCCOR 4

- Stock up and maintain 72 hours worth of emergency supplies.

TCCOR 3

- Fill vehicles and gas grill tanks with fuel.
- Clean debris from all gutters and storm drains in surrounding areas.

TCCOR 2

- Secure trash bin area other outside items. (Trash pick-up ceases).
- Place sandbags on doorsills.

TCCOR 1

- Fill bathtubs with water for flushing toilets.
- Turn refrigerator/freezer to MAX setting.
- DoDEA students are sent/remain home.
- Individuals in low lying areas where flooding may occur may move inland.

TCCOR 1C

- Pregnant women at 37 weeks (34 weeks w/twins) report to Naval Hospital.
- Pick up children from CDC/SAP ASAP.
- Commissary/AAFES closed.
- Monitor AFN/Shogun weather for updates.

TCCOR 1E/1R

- Remain indoors and be patient.
- Report damage/utility outages to Housing Maintenance (634-4663).

STORM WATCH

- Monitor for changes in TCCOR and services closure information.

ALL CLEAR

- Report damage/outages to Housing Maintenance.
- Reset fridge/freezer settings.
- Remove sandbags from doorsills.

Facility Manager Actions

Outside active Typhoon Season

- Review all other TCCOR level actions.

TCCOR 4

- Ensure personnel have been identified to survey the building following a typhoon.
- Ensure facility back up power is operable/fuel filled to at least 3/4 of a tank.

TCCOR 3

- Ensure assigned vehicles are checked and fuel tanks full.

TCCOR 2

- Secure food for individuals required to stay in the facility.
- Secure loose trash and assets around facility.
- Place sandbags across all doorsills except for the entrance door.

TCCOR 1

- Bag all computers and sensitive electronics near windows.

TCCOR 1C

- All non-essential personnel are released to their place of residence.
EXCEPTION: unless directed by their chain of command to ride-out the storm or monitor communications at an alternate location.
- Monitor AFN/Shogun weather for updates.

TCCOR 1E/1R

- Remain indoors unless directed by chain of command to ride-out storm, monitor communications, or support damage assessment efforts.

STORM WATCH

- Secure loose trash and assets around facilities.

ALL CLEAR

- Complete walkthrough Report damage/utility outages to base damage control center, for Kadena report to 18 CES Unit Control Center (DSN: 634-1915, 6456).
- Consolidate debris from within 150 ft of facility to the parking lot/road.
- Remove sandbags from doorsills.

TCCOR Visual Aids

Facility managers for all USFJ installations on Okinawa should post TCCOR visual aids at all entrances of high traffic areas. TCCOR visual aids are located on the Department of the Air Force E-Publishing website, search TCCOR. (<https://www.e-publishing.af.mil/Product-Index/>)

After the Storm

USE CAUTION

Be aware that there may be glass, debris, power lines, fires, and potentially harmful items displaced from the typhoon. You should not leave your safe area until notified by authorities that it is safe to do so. You must allow recovery personnel to do their job safely and efficiently. When unauthorized personnel are out roaming the streets and taking in the damage, they endanger both themselves and the recovery crews. Please stay put until told to leave, unless you have an emergency. When you are finally authorized to leave your safe area, use extreme caution. Check the area around your quarters, and help your neighbors, especially families of deployed members. Be sure to check common areas where children play. Base recovery crews will complete initial-checks in these areas, but it is recommended to double check the area before children return in case something was overlooked. Ensure you remove sandbags from doorsills to prevent safety concerns and help mitigate pest infiltration.

Filing a Claim for Damage

If you have private insurance, you must first file with your insurance company. If you suffered loss or damage to your personal property due to a typhoon, and you meet both of the criteria outlined below, you can file a claim through your service specific claim department listed below:

Criteria 1: You are an active duty member, a reservist on active duty, or a civilian Employee of the Department of Defense and you are not considered a local inhabitant of the area.

Criteria 2: The property was located in your assigned or authorized quarters, or located on base when it was damaged. Please see below information on contacting your respective branch claims section:

- **Air Force Claims: DSN 634-3300**
- **Army Claims: DSN 652-4742**
- **Marine Corps Claim: DSN 645-7460**
- **Navy Claims: DSN 634-8235**

Family Accountability

An online accountability system is available to families in any service. The purpose of the system is for a member to update their status, or to check on members and their families if they are in an area affected by a disaster. To register, just log on and follow the steps.

USMC/Army Alert! Emergency Mass Notification System

The USMC and Army have transitioned to the Alert! Mass Notification System (MNS) to enhance communication during emergencies. This system is designed to transmit alerts and warnings through multiple channels, ensuring that the chain-of-command can rapidly disseminate information during all-hazards and threat events. The system mandates that 90 percent of the primary population be notified within 10 minutes of an emergency, as per Department of Defense Instruction 6055.17.

To ensure timely notifications, all military, civilian, and contractor personnel must register and maintain their contact information in the Alert! system.

Installation Warning System (AtHoc)

To receive notifications using AtHoc, follow the steps listed below. Questions regarding AtHoc notifications can be sent to 18 WG Command Post or your installation's Emergency Management office.

- 1.) Right click on the white globe with purple ring located in your bottom right task bar of your work computer.
- 2.) Choose "Access Self Service."
- 3.) Go to "My Profile" tab and click "Edit" in the top right hand corner.
- 4.) Under "My Profile," enter your user information. At a minimum, you should have your work phone, mobile phone and text messaging; the last two fields will be where you add your government cell phone number (if applicable). It is highly recommend you add your dependents' numbers and a personal email address as well.

NOTE 1: DO NOT use the US Flag with "315" in the phone number boxes

NOTE 2: Ensure you follow the format for the mobile phone numbers provided below the box. For example, 011+8210+last eight digits of number; 09012345678 becomes 011821012345678.

- 5.) Click save and close.

Download the Air Force AtHoc app on your phone!

AF AtHoc app code is AFEMNSPACAF

Automatic Alerts for Disasters and Attacks

Japan J-ALERT Emergency Broadcast System

J-ALERT is Japan's emergency broadcast system launched in 2004, used to quickly and automatically disseminate information from the government to the public via satellite and an array of equipment set up nationwide, in cases of natural disasters such as earthquakes, tsunami or floods, or attacks on Japan such as missile launches.

The J-ALERT system sends alerts as follows:

Transmission Always Automatic - Missile Launch, Terrorist Attack, Military Attack, Earthquake, Tsunami, Volcanic Eruption, Weather Emergency etc.

Transmission Automatic Depending on Location - Regional Details about Earthquake, Tsunami, Volcanic Eruption, Tornado, Flood etc.

Transmission Not Usually Done - Specific River Flood Levels, Weather Warnings, Volcano Warnings etc.

How can I get J-ALERT Alerts?

The "NHK World TV" app on iOS and Android can provide alerts in English from the J-ALERT emergency broadcast system, but receiving is on an "opt in" basis. Install this app from your app store, and in its notification settings, set it to receive quake, tsunami and/or breaking news alerts.

To receive J-ALERT's in English

- 1.) Download NHK World Japan App.
- 2.) Within the app settings, set push notifications to English and set toggles to receive quake, tsunami, and breaking news alerts.

US Naval Hospital Considerations

At TCCOR 1-C, routine admission to the US Naval Hospital at Camp Foster and all branch medical clinics on the island are sus-pended until TCCOR-Storm Watch or All Clear are declared. Emer-gency care is still available at the US Naval Hospital. Appointments cancelled due to typhoon conditions should be rescheduled by call-ing the appropriate clinics.

All expectant mothers who are 37 weeks (35 weeks with twins or high risk pregnancies) or greater gestation are advised to report to the US Naval Hospital, Camp Foster. Upon arrival, expectant mothers are expected to check-in at the Information Desk. Expectant mothers will be residing in the hospital during the emergency phase of the storm. Bring all prescription medications, personal toilet articles, a change of clothing, snacks (food options are limited), credit card for meals, sleeping bag and pillow. If you bring a radio, it must have earphones. Due to limited space in the Naval Hospital, you may bring only ONE adult with you (no children or pets due to safety concerns)

Approximate cost for meals in the galley:
(unable to accept cash)

\$4.40 – Breakfast

\$7.10 - Lunch

\$6.10 – Dinner

Emergency Family Plan

- Collect important contacts information, including contact information for locations your family frequents.
- Map out and practice evacuation routes from each room in your home.
- Establish a family communications plan and rally point.
- Contact schools, daycare providers, workplaces, and apartment buildings your family uses to review their site-specific emergency plans.
- Identify where the utility shut-off location is in your home and how to use it.
- Write down safety considerations/skills and practice with your family.

Emergency Kit Check-List

(Maintain a minimum of 3 days of supplies, recommend up to 14 days)

- Water (one gallon of water a day per person/pet).
- 2 week supply of non-perishable foods for family and pets, don't forget a non-electric can opener.
- Infant formula and diapers.
- Battery powered radio and a NOAA Weather Radio with tone alerts.
- Flashlight/lanterns/chargers/portable power bank/extra batteries.
- First aid kit and dust masks.
- Hand wipes, garbage bags and plastic ties for personal sanitation, in case of water outage.
- Feminine supplies and personal hygiene items.
- Sleeping bag or warm blanket for each person.
- A change of clothing: long sleeved shirt, long pants, and sturdy shoes.
- Prescription medications and glasses.
- Household chlorine bleach and medicine dropper. (Bleach can be used as a disinfectant when diluted nine parts water to one part bleach. In an emergency, you can use it to treat water by using 16 drops of regular household liquid bleach per gallon of water. Do not use scented, color safe, or bleaches with added cleaners.)
- Cash or traveler's checks and change (Yen & Dollars).
- Important documents such as insurance policies, identification, passports, and bank account records in a waterproof/portable container.
- Emergency reference material such as a first aid book or information from ready.gov. Entertainment during power outages, like books, games, puzzles, paper and pencil, or other activities for children.
